Commencing April 1, 2016, 100% of the operating results of Shaw Media Inc. ("Shaw Media"), as well as its assets and liabilities, were fully consolidated as a business combination in accordance with IFRS 3 - *Business Combinations* and, as a result, Shaw Media was accounted for by applying the acquisition method as of that date. Shaw Media was reported as part of the Television segment as of April 1, 2016 (further discussion is provided in note 27 of the Company's audited annual consolidated financial statements for the year ended August 31, 2016).

In addition, for fiscal 2016, certain of Corus' Pay Television business' ("Pay TV") assets and liabilities were reclassified as held for disposal effective November 19, 2015 as a consequence of meeting the definition of assets held for sale under IFRS 5 – *Non-current Assets Held for Sale and Discontinued Operations*. The disposal group, Pay TV, did not qualify for discontinued operations presentation and as a result, its operating results remained in continuing operations in the consolidated statement of income and comprehensive income for the year ended August 31, 2016. However, intangible assets classified as held for disposal ceased being amortized effective November 19, 2015 and as a consequence, amortization of program and film rights in the Television segment for the nine months ended May 31, 2016 was lower by \$15.6 million, than it would have been had amortization on these assets not ceased. On February 29, 2016, the Pay TV disposition was completed and the related proceeds and a gain associated with this disposal group was recognized (further discussion is provided in note 27 of the Company's audited annual consolidated financial statements for the year ended August 31, 2016).

These transactions contributed to the significant year-over-year variances in the consolidated operating results for the three and nine months ended May 31, 2017, as the prior year includes the operating results of the Pay TV business up to the end of the second quarter of fiscal 2016 and only includes the operating results of Shaw Media for two months of the third quarter of fiscal 2016. In the prior year's quarter, Shaw Media generated revenues and segment profit of \$275.4 million and \$78.8 million, respectively. On a pro forma basis, including Shaw Media for the full three months in the third quarter of last year, for the three months ended May 31, 2017 total revenues increased 3%, while segment profit increased 14% compared to the prior year. Segment profit margin of 38% in the third quarter of fiscal 2017 was up from 36% in the prior year (as reported) and up from 34% on a pro forma basis. In the nine months ended May 31, 2016, Shaw Media generated revenues and segment profit of \$797.4 million and \$248.1 million, respectively, while Pay TV generated revenues and segment profit of \$67.8 million and \$49.3 million, respectively. On a pro forma basis, including Shaw Media and excluding Pay TV for the same period last year, for the nine months ended May 31, 2017 total revenues declined 2%, while segment profit increased 5% from the prior year. Segment profit margin of 36% for the nine months ended May 31, 2017 was down from 39% in the prior year (as reported) and up from 34% on a pro forma 34% on a pro forma basis, including Shaw Media and excluding Pay TV for the same period last year, for the nine months ended May 31, 2017 total revenues declined 2%, while segment profit increased 5% from the prior year. Segment profit margin of 36% for the nine months ended May 31, 2017 was down from 39% in the prior year (as reported) and up from 34% on a pro forma basis.
